mv d-one+

**High-speed sintering
for the modern
dental practice.**

Efficient sintering and finishing of single
crowns and bridges of up to three units.

mv d-one+ **ALL IN ONE**

The mv d-one+ combines pre-drying, sintering, glazing and crystallization – intuitive to operate and designed to deliver reproducible results of the highest standard.

up to 600 °C/min heating rate	less than 8 minutes for single crowns	flexible up to 240 minutes process time
---	---	---

WHAT DENTISTS GAIN IN THEIR DAY-TO-DAY PRACTICE.

01 FASTER FINISHING

Single crowns can be fabricated in less than 8 minutes.

03 EASY TO USE

The intuitive interface provides suitable programmes for every step of the process.

02 STAY FLEXIBLE

Additional materials can be processed with cycle times of up to 240 minutes.

04 ALL-IN-ONE FURNACE

Pre-drying, sintering, glazing and crystallization in a coordinated system.

MAXIMUM SPEED. MAXIMUM FLEXIBILITY. MAXIMUM RELIABILITY.
